

# MANDEEP VIRDEE

Dentist GDC 193920

BDS University of Sheffield 2010

Since graduating from the University of Sheffield in 2010, I have worked in several dental practices across the country gaining multiple experiences, exposures and honing my dental skills.

I have completed post graduate courses in advanced restorative dental techniques and this encapsulates much of my work. I feel privileged to treat my patients, always endeavouring to provide a high level of dental care, in a relaxed and pain-free way. I pride myself on developing long-term trusting and friendly relationships with all my patients, including all those at Station Road. In the rare occasions when I am not working I enjoy keeping fit and socialising with friends and family.

## Your Dental Team

# REBEKAH HYDE

**Dentist GDC 65816**

**BDS University of Bristol 1990**

Having qualified from Bristol University Dental school in 1990, I moved to Derby and since then have worked in a number of dental practices in the locality.

I enjoy all aspects of general dentistry and the variety that brings - every patient is an individual with individual needs. It makes my day to see one of my patients smile unreservedly for the first time in a long time and I do understand that the dental chair can be a difficult place for some of us.

My engineer husband and I have 3 children, now in their teens and twenties, and in any spare time I particularly enjoy the theatre, my book club, dressmaking and attempting to grow vegetables!

# JONATHAN FITTON

**Dentist GDC 58187**

**MSc Lond 1993**

**BChD University of Leeds 1983**

I qualified in Dentistry from Leeds University in 1983. If that seems like a long time ago I assure you it is! Since then I have at various times: worked general practice positions around the UK; spent 2 years as a VSO volunteer dentist in the Maldives; did an MSc in Prosthetics at the Eastman Dental Institute in London. For the past 17 years I have been at the Station Road Dental Care.

Away from the practice I am a keen triathlete and compete locally and occasionally abroad. In the time that is left over, I work with my wife to tame a large and unruly garden.

# REBECCA GAYED

**Dentist GDC Number 257731**

**BDS University of Liverpool 2015**

Having graduated from the University of Liverpool, I have worked in numerous practices around the area gaining a wealth of knowledge. During this time, I have completed post graduate exams from the royal college of surgeons. Additionally, I have achieved university accredited qualifications in root canal treatment and in restorative dentistry. I especially enjoy carrying out aesthetic and cosmetic dentistry such as crowns and veneers. I have also had the privilege of completing Invisalign training which helps transform a smile and change a person's life. For me, dentistry is about building an excellent rapport with patients and creating a relaxing environment for them as well as providing the best possible service and quality of care. In my spare time I enjoy spending time with family, travelling and baking.
